PROFESSIONAL SUMMARY

Computer Science undergraduate at ABES Engineering College with a strong foundation in Java, Data Structures & Algorithms, and web development. Skilled in building responsive web interfaces and familiar with React.js, Node.js, REST APIs, and database concepts. Eager to apply problem-solving abilities and software development skills to build scalable applications and contribute to real-world engineering projects.

TECHNICAL SKILLS

Programming Languages: Java, Python (Basic), JavaScript (ES6+), C/C++, HTML5, CSS3
Core Computer Science: Data Structures & Algorithms, Object-Oriented Programming (OOP), Database Management Systems (DBMS)
Frameworks & Libraries: React.js, Node.js, Bootstrap, Tailwind CSS
Backend, APIs & Databases: RESTful APIs, API Integration, MySQL
Tools & Platforms: Git, GitHub, VS Code, n8n

EXPERIENCE

JP IT Staffing LLC **Sep 2026 – Present**
Front End Development Intern *Remote*

- Manage **30+ buyer leads daily** through an API-driven dashboard, accelerating lead qualification and outreach.
- Automated classification of buyer leads as valid or invalid using the **Gemini API** in Python, enabling data-driven outreach decisions.
- Support an end-to-end workflow integrating API-based lead retrieval, AI classification, and email communication.

Vault of Codes **Jul 2026**
Web Development Intern *Remote*

- Developed responsive web pages using HTML5, CSS3, and JavaScript, applying core front-end development concepts during a project-based internship.
- Designed intuitive navigation and interactive interface elements, improving usability and overall user experience.

Uttar Pradesh Police **Jan 2026 – Feb 2026**
Cyber Security Intern *On-site*

- Completed a **120-hour** experiential learning program covering cybersecurity fundamentals and police administration.
- Analyzed common cyber threats, cybercrime prevention techniques, and security protocols for protecting sensitive data.

PROJECTS

AI Resume Screening & Candidate Shortlisting System
React.js, Python, scikit-learn

- Trained a **Gradient Boosting** model in Python to automate candidate shortlisting, achieving **90.63% test accuracy**.
- Developed the **React.js** frontend to present candidate screening results from the Python model.
- Developed Python parsers for 3 resume formats (PDF, DOCX, image) to extract candidate data for screening.

CineSearch – Movie Discovery Web Application
HTML, CSS, JavaScript, TMDB API

- Integrated the **TMDB API** in JavaScript to fetch movie search results, trending titles, and movie details.
- Implemented a Local Storage-based favourites feature to save selected movies across browser sessions.
- Built a discovery interface with search, trending slides, and movie-detail views using HTML, CSS, and JavaScript.

EDUCATION

B.Tech in Computer Science & Engineering (AKTU) **Sep 2025 – Jul 2028 (Expected)**
ABES Engineering College | CGPA: 7.9

Diploma in Computer Science & Engineering (AMU) **Sep 2022 – Jul 2025**
University Women's Polytechnic, AMU | CGPA: 9.32

Secondary Education (Class X) **Aug 2022**
AMU Girls' School | 94.0%

CERTIFICATIONS

AI for All (TCS iON) | Generative AI Essentials (TCS iON) | Java (Basic) (HackerRank) | Entrepreneurship and Agentic AI Skilling (INIF) | Exploratory Data Analysis (FutureSkills Prime / NASSCOM) | Machine Learning Workshop (Talent Battle)

LEADERSHIP & ACHIEVEMENTS

- Serve as **Treasurer** of AWS Student Builder Group, ABES: responsible for tracking group funds and maintaining accurate expense records.
- Serve as **Library Student Representative** at ABES, communicating student feedback and requests to library staff.
- **Co-Head, NSS Report Drafting Team**: led a 5-member team, documented many event reports and carried out community outreach.
- Solved **120+ LeetCode problems** in arrays and strings and earned the **100 Days Badge** for consistent practice.
